

PUBLIC ANNOUNCEMENT

State Route 1 ADA Improvements & Temporary Impacts to access at Crystal Cove Trail in Newport Beach & Huntington Beach Bike Path in Huntington Beach

This notice is to inform the public that Caltrans is proposing ADA Curb Ramp improvements at 20 intersections between Crystal Heights Drive and First Street, cities of Newport Beach, Huntington Beach and Seal Beach Project. The Build Alternative will temporarily impact access, through use of Temporary Construction Easements, to Crystal Cove State Park at Los Trancos/PCH and Crystal Cove Trail at Crystal Heights Drive/PCH for approximately 5 working days; the same also applies to the Huntington Beach Bike Path at 9th/PCH and 17th/PCH. Currently, the project is scheduled for a construction start date of 2021. Detours, adequate sign posting, phase construction, warning signs etc. shall be incorporated into a Traffic Management Plan (TMP) during Design. All TMP measures shall be included in the Plans, Specifications, and Estimates (PS&E) for implementation by the contractor prior to and during construction of any improvements to ensure public safety.

Because Crystal Cove State Park is a recreational facility/Marine Protected Area and Huntington Beach Bike Trail is an off-road multi-use bike path, both are subject to protection under Section 4(f) of the U.S. Department of Transportation Act of 1966. Caltrans has studied the project's impacts on the Section 4(f) resources and the study indicates that neither Crystal Cove State Park nor Huntington Beach Bike Trail will not be adversely affected. The report that explains why is called a De Minimis 4(f) Determination. This notice is to inform you of the availability of the De Minimis Determination for a period of 10 days starting April 2, 2019-April 12, 2019 at the following website: http://www.dot.ca.gov/d12/DEA/1/0P680_0P590. Would you care to make comments on the project? If you have comments or concerns on the proposed De Minimis Findings, please submit comments within the public review period mentioned above to the following email address: D12.SR-1.CURB.RAMP4F@dot.ca.gov. If there are no major comments, Caltrans will proceed with the project's design.
